LADDER COMPANY 10

TO: Richard Fuerch Division Commander Div. 1

FROM: Thomas H. Engel Captain

DATE: December 4, 2004

SUBJECT: 130 Liberty Street The Deutsch Bank Bldg.

As you may be aware, there have been 3 responses to 130 Liberty Street by E10/L10 in the past 6 months. 2 of the 3 responses necessitated entrance into the building by these companies to investigate and/or mitigate the condition. Public information and information from the buildings owner, contractors and occupants have raised concerns as to how FD responses and operations in the building should be handled. At present there is a CIDS card which will notify incoming units that Haz-Mats exist in the building. Also the CIDS prompts the dispatcher to request a Squad and Haz-Mat1 to respond. At this time I would request an SOP be developed for any incident that might develop in the building. If at all possible this SOP should be developed by Haz Mat Ops in conjunction with E10, L10 and Battalion 1 and address specific issues as it relates to operations within the bldg by first due units prior to the arrival of Haz Mat units.

Respectfully Submitted,

Captain Lad 10 Gp. 15
